

**1** day  
course

# Environmental Awareness in the Workplace

course outline

## Course Aims

This one day introductory programme is aimed at people in business, commerce and industry who want to develop their understanding of environmental issues in the workplace.

This course focuses on your organisation and allows you to identify the key environmental issues on your site, what the legal obligations are and how environmental improvements can be made.

## Course Aimed at

The course is ideal for anyone, from a range of sectors, who needs a basic awareness of environmental issues at work

## Learning Outcomes

At the end of the course delegates will be able to:

- Identify the main environmental issues at global and UK level
- Identify the key methods by which businesses impact on the environment
- Recognise the main items of environmental legislation affecting business and industry
- Explain some of the key benefits of good environmental management
- Implement environmental best practice within their organisations
